

Language Competence Survey Results

1st Quantitative evaluation - Students

The first question shows us that the majority of our students do not get any Certificate of the Language, but it is almost normal given their young age.

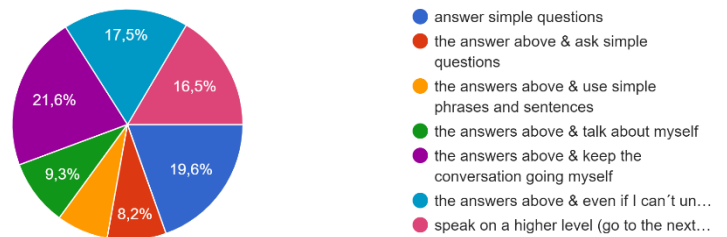

Do you have any English certificate?
100 risposte

As far as the four skills are concerned, we can be satisfied if within the end of the project our students will be placed in the last four fields, so that the following fields will decrease:

- answer simple questions
- the answer above & ask simple questions
- the answers above & use simple phrases and sentences

I can...
97 risposte

In the field of interaction, which is the most important in this project, 53,4% can only communicate on the phone or retell a simple story or express opinions /ask for opinions.

Only 10,5% can communicate fluently. We expect from this project that our students will improve their interactive skills so as to reduce that 53,4% and increase the following fields.
